

# UC San Francisco Regional Medical Center

An 80,000 s.f. medical education building on a three acre site for a new UCSF Regional Medical Center in Fresno. Ultimate development will include more than 20 buildings of various instructional, patients' care and research facilities.

The Medical Education Building with the exterior open space is the first phase with a parking structure on the north side for Phase II. A lawn-terraced amphitheater with a tree bosque is designed for informal and programmed use on the north side. The south side has a series of gardens with the main pedestrian entry plaza on the west side.
