Client
Stanford University

SWA Scope
Landscape architectural services

Size
Housing for 600 undergraduates

Architect
Fisher Friedman Associates, AIA

Awards
National Association of Home Builders Grand Award
Pacific Coast Builders Conference Gold Nugget Grand Award

The site plan and design located buildings to establish outdoor gathering places and connect to other campus destinations along a north/south axis. Four small walled courtyards provide intimate spaces at building entries. The main lawn creates a central gathering place and a forecourt to the complex's dining hall. Covered walkways frame the main lawn area and a series of semi-enclosed seating areas are adjacent to the main quad.
