

Tucker's Point Club

Location
Tucker's Town, Bermuda

Client
Tucker's Point Development Services

SWA Scope
Site master planning
Landscape architectural services

Size
16 acres

Architect
HKS, Inc.

SWA provided site master planning and landscape architectural services for this 16-acre, 180-room resort with hotel and condominiums, located on the former site of the historic Castle Harbor Resort. The site, touted to be the most expensive and opulent construction in Bermuda's history, includes a golf club, beach club on a private beach with pool and deck, restaurant, and private residence club.

SWA's role for the hotel included siting new buildings on the steep terrain, and designing two resort pools and decks, the spa gardens and exercise lawns, the croquet lawn, and the general landscape and hardscape design for the entire property. Because plant materials cannot be imported and must be grown or collected on the island, SWA also coordinated the materials needed for an onsite plant nursery.
