

McCormick Place

SWA and the design team were selected through a competition for the design and implementation of the \$800 million McCormick Place Expansion project. The program requires one million sq.ft. of exhibition/meeting facilities, 230,000 sq.ft. of galleria, a 74,000-seat multi-purpose stadium, public plaza and landscape improvements, and infrastructure. The project provides Chicago with three million contiguous square feet of exhibition space, and a new near-town mixed-use development opportunity.
