

Silverado Resort

Silverado Resort and Spa is an existing 1,200-acre resort in Napa, CA offering condo rental units, two 18-hole golf courses, fitness center and spas as well as multiple pools and tennis courts. The resort currently boasts the scenic Napa backdrop, a historic mansion at its core, and the surrounding borrowed views of the two lush golf course greens and large trees. However, with many new competing venues for luxury hospitality in Napa Valley, the client recognizes the necessity to upgrade and update its amenities, grounds and image at this time. The proposed changes to the main resort core aim to create a village center feel and include the addition of 43 new hotel rooms with a first floor retail arcade, a new 10,000 s.f. conference center, a renovated pool area, multi-use outdoor event space, and a specialty food market.
