SWA Scope
Master Planning
Landscape Architecture

Size
26 acres (10.5 hectares)

Architect
Bing Thom Architects
Gideon Toal, Architecture (Architect of Record)

Awards
ASLA Texas Chapter Honor Award

The initial phase of the project consists of a facility of approximately 400,000 sq. ft. (37,161 m²) and the next phase will grow to 900,000 sq. ft. (83,613 m²) to serve 10,000 students by 2023. The campus site is bisected by the Trinity River and the design features a connecting bridge. SWA provided the campus master plan and campus landscape design, including two entry plazas at downtown and uptown campus, courtyards, streetscape, water features and roof gardens. SWA's goal for the project is to provide a stimulating, rewarding and humane environment that encourages learning and pushes the boundaries of innovation.
